

# Vinson & Elkins LLP

For almost a century, Vinson & Elkins lawyers have provided innovative business solutions for clients whose needs are as diverse as the entities they represent. In today's challenging environment of global markets, volatile economies and complex human and environmental issues, our time-tested role as trusted advisor has become even more critical. The depth and breadth of our lawyers' experience, combined with the responsiveness and efficiencies of the firm's global reach, enables Vinson & Elkins to serve clients from start-up, to the negotiating table and boardroom, before legislative and regulatory bodies, in the courtroom, and beyond.
